FUND SUMMARY

Investment Objective: The Fund's primary objective is capital appreciation with a secondary objective of providing income.

Fees and Expenses of the Fund: This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts on purchases of Class A shares if you and/or your family invest, or agree to invest in the future, at least \$25,000 in the Fund. More information about these and other discounts is available from your financial professional and in **How to Purchase Shares** on page 9 this Prospectus and in **Purchase, Redemption and Pricing of Shares** on page 37 of the Statement of Additional Information.

Shareholder Fees (fees paid directly from your investment)	Class A	Class I
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	5.75%	None
Maximum Deferred Sales Charge (Load)	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None	None
Redemption Fee	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)		
Management Fees	1.00%	1.00%
Distribution and/or Service (12b-1) Fees	0.25%	None
Other Expenses ⁽¹⁾	0.67%	0.67%
Option Fees and Expenses ⁽²⁾	0.25%	0.25%
Remaining Other Expenses	0.42%	0.42%
Acquired Fund Fees and Expenses ⁽¹⁾⁽³⁾	0.01%	0.01%
Total Annual Fund Operating Expenses	1.93%	1.68%
Fee Waiver and/or Expense Reimbursement ⁽⁴⁾	(0.17)%	(0.17)%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expenses Reimbursement	1.76%	1.51%

(1) Based on an estimate for the current fiscal year.

(2) "Other Expenses" include the fee paid to the counterparty of the Fund's option ("Option"), which is the primary way the Fund seeks exposure to a certain commodity pool or pools. The Option is designed to replicate the aggregate return of the commodity pool(s) included in the Option. Option fees and expenses do not include any fees and expenses of the investment manager included in the Option. The Option's returns will be reduced and its losses increased by the costs associated with the Option, which are the fees and expenses deducted by the counterparty in the calculation of the returns of the Option, including the management and any sponsor fee. **These fees, which are not reflected in the Annual Fund Operating Expenses table, are embedded in the return of the Option and represent an indirect cost of investing in the Fund.** Generally, the management fees of the investment manager included in the Option is 2.00% of assets. The sponsor fee is 0.10%. Such fees are accrued daily within the Option and deducted from the Option's value daily.

(3) Acquired Fund Fees and Expenses are the estimated average indirect costs of investing in other investment companies. The operating expenses in this fee table will not correlate to the expense ratio in the Fund's financial highlights, when published, because the financial statements include only the direct operating expenses incurred by the Fund.

(4) Princeton Fund Advisors, LLC has contractually agreed to waive management fees and to make payments to limit Fund expenses, until at least February 28, 2018 so that the total annual operating expenses (exclusive of any (i) front-end or contingent deferred loads, (ii) brokerage fees and commissions, (iii) acquired fund fees and expenses, (iv) fees and expenses associated with investments including investments in other collective investment vehicles or derivative instruments (for example options fees and expenses); (v) borrowing costs (such as interest and dividend expense on securities sold short); (vi) taxes; and (vii) extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser))) do not exceed 1.50% and 1.25% of average daily net assets attributable to Class A and Class I shares, respectively. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three-year basis (within the three years after the end of fiscal year during which the fees were waived or reimbursed) if such recoupment can be achieved within the lesser of the foregoing expense limits at the time of waiver or reimbursement or the then-current expense limits at the time of recoupment. This agreement may be terminated only by the Fund's Board of Trustees, on 60 days written notice to Princeton Fund Advisors, LLC.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

<u>Class</u>	<u>1 Year</u>	<u>3 Years</u>
Class A	\$744	\$1,131
Class I	\$154	\$513

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance.

Principal Investment Strategies:

The Fund seeks to achieve its investment objectives primarily through exposure to long and short futures contracts on longer-term US Treasury securities (securities with maturities of 6 years or longer). The Fund may achieve such exposure to US Treasury futures by investing in a commodity pool that invests in such futures contracts or by entering into a swap or option with a counterparty on the returns of the commodity pool. The Fund may invest up to 25% of its total assets in commodity pools.

The Fund’s exposure to long and short US Treasury futures seeks to replicate the returns of the Long/Short US Treasuries Index created by ProfitScore Capital Management, Inc. (the “Index”). The Index is determined by a directional trading model created by ProfitScore which seeks to predict the daily direction of the value of US Treasury markets. The model consists of 11 independent sub-models which each analyze a different data stream to predict the direction of US Treasury markets. Each sub-model produces a daily positive, negative or neutral signal. The signals from each sub-model are equally weighted and aggregated to determine a daily positive, negative or neutral signal for the overall model. If the signal is positive, the Fund will have exposure to long US Treasury futures. If the signal is negative, the Fund will have exposure to short US Treasury futures. If the signal is neutral, the Fund will allocate to cash and cash equivalents. While the Fund’s exposure to US Treasury futures is based upon the Index, the Fund itself is not an index fund.

The Fund also allocates a portion of its assets to fixed income securities for the purpose of generating income. The Fund may invest directly or indirectly in fixed income securities of any maturity. Such fixed income investments will be rated investment grade by Standard & Poor’s or Moody’s at the time the investment is made. The Fund may invest directly in U.S. Treasury bonds. The Fund may also invest in exchange traded funds (“ETFs”), money market funds or open end mutual funds, including affiliated mutual funds (collectively, “Underlying Funds”) whose principal investment strategy is to invest primarily in investment grade fixed income securities of U.S. issuers of any size, including smaller issuers. To the extent the Fund invests in any affiliated Underlying Funds, it will waive its advisory fee with respect to the portion of the Fund that is invested in any such affiliated fund.

The adviser will consider a variety of factors in determining whether to sell a fixed income investment: changes in market condition, changes in credit quality, changes in prospects for alternative investment possibilities or return opportunities for other fixed income instruments, current return expectation of such security, any changes in interest rates, liquidity of the security, and cash needs of the Fund. If a fixed income investment is downgraded after purchase the adviser may, but is not obligated to, dispose of such investment.

The Fund may engage in frequent trading in executing its principal investment strategies. The Fund is “non-diversified” for purposes of the Investment Company Act of 1940, as amended (the “1940 Act”), which means that the Fund may invest in fewer securities at any one time than a diversified fund.

Principal Investment Risks: *As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. An investment in the Fund is not a deposit and is not guaranteed by the FDIC or any other government agency.*

The following risks may apply to the Fund’s investments:

- **Credit Risk:** There is a risk that issuers and counterparties will not make payments on securities and other investments held by the Fund, resulting in losses to the Fund. In addition, the credit quality of securities held by the Fund may be lowered if an issuer’s financial condition changes.
- **Fixed Income Risk:** The Fund may invest directly in fixed income securities, or indirectly through ETFs, money market funds, or mutual funds which invest primarily in fixed income securities. The value of the Fund’s investments in fixed income securities, whether via direct investment or through Underlying Funds, will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities. Other risk factors include credit risk (the debtor may default), extension risk (an issuer may exercise its right to repay principal on a fixed rate obligation held by the Fund later than expected), and prepayment risk (the debtor may pay its obligation early, reducing the amount of interest payments). These risks could affect the value of a particular investment by the Fund, possibly causing the Fund’s share price and total return to be reduced and fluctuate more than other types of investments.
- **Futures Risk:** The Fund’s exposure to futures involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) leverage risk (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the futures contract may not correlate perfectly with the underlying index. Investments in futures involve leverage, which means a small percentage of assets invested in futures can have a disproportionately large impact on the Fund. This risk could cause the Fund to lose more than the principal amount invested. Futures contracts may become mispriced or improperly valued when compared to the adviser’s expectation and may not produce the desired investment results. Additionally, changes in the value of futures contracts may not track or correlate perfectly with the underlying index because of temporary, or even long-term, supply and demand imbalances.

- *Management Risk:* The adviser’s judgments about the long-term returns the Fund may generate through its principal investment strategy may prove to be incorrect and may not produce the desired results. Additionally, the adviser’s judgments about the allocation of Fund’s assets between the principal investment strategy and potential performance of each may also prove incorrect and may not produce the desired results. The Fund may also experiences losses in a negative equity market, and such losses may be amplified if the Fund’s strategy is not successful. The Fund’s principal investment strategy may not achieve its intended results and could negatively impact the Fund.
- *Market Volatility Risk:* Overall fixed income, and derivatives market risks may affect the value of the Fund. While the Fund is not designed to be correlated with the markets in general, dramatic or abrupt volatility within the market would negatively impact the Fund’s strategy. Factors such as domestic economic growth and market conditions, interest rate levels, and political events affect the securities and derivatives markets. When the value of the Fund goes down, your investment in the Fund decreases in value and you could lose money.
- *Model Risk:* Like all quantitative analysis, ProfitScore’s directional trading model used to create the Index carries a risk that it might be based on one or more incorrect assumptions. The model may not accurately predict the direction of the value of US Treasuries. Rapidly changing and unforeseen market dynamics could also lead to a decrease in the effectiveness of the model. No assurance can be given that the Fund will be successful under all or any market conditions.
- *No History of Operations Risk:* The Fund is a new mutual fund and prior to its recent commencement of operations had no history of operations for investors to evaluate.
- *Non-Correlation Risk:* The Fund is not designed to participate in or be correlated to overall movements of the markets; therefore the Fund may not benefit from positive equity or fixed income markets, or experience the same type of positive returns as some other funds in a positive equity or fixed income market environment.
- *Non-Diversification Risk:* As a non-diversified fund, the Fund may invest more than 5% of its total assets in the securities of one or more issuers. The Fund’s performance may be more sensitive to any single economic, business, political or regulatory occurrence than the value of shares of a diversified investment company.
- *Options Risk:* There are risks associated with the sale and purchase of call and put options. As a seller (writer) of a put option, the Fund will tend to lose money if the value of the reference index or security falls below the strike price. As the seller (writer) of a call option, the Fund will tend to lose money if the value of the reference index or security rises above the strike price. As the buyer of a put or call option, the Fund risks losing the entire premium invested in the option if the Fund does not exercise the option.
- *Swap Risk:* The Fund uses swaps to enhance returns. The Fund’s use of swaps involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) the risk that the counterparty to a derivative transaction may not fulfill its contractual obligations; (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index.
- *Turnover Risk:* A higher portfolio turnover may result in higher transactional and brokerage costs associated with the turnover which may reduce the Fund’s return, unless the portfolio assets traded can be bought and sold without corresponding commission costs. Active trading may also increase the Fund’s realized capital gains or losses, which may affect the taxes you pay as a Fund shareholder.
- *Underlying Funds Risk:* The Fund may invest in ETFs, money market funds, or mutual funds that invest primarily in fixed income securities (the “Underlying Funds”). Underlying Funds are subject to investment advisory and other expenses, which will be indirectly paid by the Fund. As a result, the cost of investing in the Fund will be higher than the cost of investing directly in an Underlying Fund and may be higher than other mutual funds that only invest directly in stocks and bonds. Underlying Funds in which the Fund may invest may be subject to different risks, investment strategies and policies than those of the Fund.

Performance: Because the Fund has only recently commenced investment operations, no performance information is presented for the Fund at this time. In the future, performance information will be presented in this section of this Prospectus. Also, shareholder reports containing financial and performance information will be mailed to shareholders semi-annually. Updated performance information for the Fund will be available at no cost by visiting www.princetontreasuryfund.com or by calling 1-888-868-9501.

Investment Adviser: Princeton Fund Advisors, LLC

Investment Adviser Portfolio Managers: Greg Anderson, Manager and President of the adviser, and John L. Sabre, Manager and Chief Executive Officer of the adviser, have each served as a portfolio manager of the Fund since its inception in December 2016.

Purchase and Sale of Fund Shares: You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open for trading. The minimum initial investment in Class A and Class I shares is \$2,500 and \$100,000, respectively. There is a minimum amount of \$100 for subsequent investment in any share class. These minimums may be waived at the discretion of the Adviser on behalf of the Fund.

Tax Information: Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan. However, these dividend and capital gain distributions may be taxable upon their eventual withdrawal from tax-deferred plans.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund, the adviser or their related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective:

The Fund's primary objective is capital appreciation with a secondary objective of providing income. The Fund's investment objective may be changed by the Fund's Board of Trustees upon 60 days written notice to shareholders.

Principal Investment Strategies:

The adviser's investment process combines risk management, due diligence, experienced portfolio construction, and portfolio monitoring. The adviser has been managing mutual funds since 2011 and currently manages other open end mutual funds within the Trust and a closed-end fund. The adviser has overall supervisory responsibilities for the general management and investment of the Fund's securities portfolio. The Fund's adviser sets the Fund's investment objective and retains final authority with respect to the Fund's portfolio if it believes an investment is not consistent with the Fund's investment guidelines and restrictions.

The Fund seeks to achieve its investment objectives primarily through exposure to long and short futures contracts on longer-term US Treasury securities (securities with maturities of 6 years or longer). The Fund may achieve such exposure to US Treasury futures by investing in a commodity pool that invests in such futures contracts or by a swap or option on the returns of the commodity pool. The Fund may invest up to 25% of its total assets in commodity pools. The Fund's exposure to long and short US Treasury futures seeks to replicate the returns of the Long/Short US Treasuries Index created by ProfitScore Capital Management, Inc. (the "Index"). The Index is determined by a directional trading model created by ProfitScore which seeks to predict the daily direction of the value of US Treasury markets. The model consists of 11 independent sub-models which each analyze a different data stream to predict the direction of US Treasury markets. Each sub-model produces a daily positive, negative or neutral signal. The signals from each sub-model are equally weighted and aggregated to determine a daily positive, negative or neutral signal for the overall model. If the signal is positive, the Fund will have exposure to long US Treasury futures. If the signal is negative, the Fund will have exposure to short US Treasury futures. If the signal is neutral, the Fund will allocate to cash and cash equivalents. The capital gains generated by the Fund's futures strategy are expected to be 60% long term capital gains and 40% short term capital gains as we believe the options or futures contracts are Section 1256 contracts under the Internal Revenue Code. The Fund also seeks to generate cash flow or income using a fixed income strategy. The Fund's adviser will determine the allocation among the Fund's principal investments.

The adviser manages the Fund's fixed income allocation directly and in doing so will invest the Fund's assets in U.S. Treasury bonds of any maturity, or in Underlying Funds whose investment strategy is to invest primarily in investment grade (rated BBB or higher by Standard & Poor's or Moody's) fixed income securities of any maturity, of U.S. issuers of any size, including smaller issuers. Credit quality of the issuer will be considered at the time of investment, and for Underlying Funds the adviser will invest in Underlying Funds whose principal investment strategy is to invest primarily in investment grade fixed income securities. The Fund may also invest in such fixed income mutual funds that are affiliated with the Fund or its adviser. The adviser will consider a variety of factors in determining whether to sell a fixed income investment, including changes in market condition, changes in credit quality, changes in prospects for alternative investment possibilities or return opportunities for other fixed income instruments, current return expectation of such security, any changes in interest rates, liquidity of the security, and cash needs of the Fund. If a fixed income investment is downgraded after purchase, the adviser may, but is not obligated to, dispose of such investment.

To the extent the Fund invests in any affiliated Underlying Funds, the adviser shall waive its advisory fee with respect to the portion of the Fund that is invested in any affiliated Underlying Funds.

The Adviser believes this Fund is suitable to include in the risk portion of an investment portfolio that includes equities and non-investment grade fixed income securities. However, if you are seeking only investment grade fixed income investments, then the Fund is not appropriate for your investment goals.

Manager-of-Managers Order

The adviser, on behalf of itself and on behalf of the Fund and other funds it advises or may advise in the future that are each a series of Northern Lights Fund Trust, was granted an exemptive order (the “Order”) from the U.S. Securities and Exchange Commission (the “SEC”) that permits the adviser, with Board of Trustees’ approval, to enter into, replace, or amend sub-advisory agreements with sub-advisers without obtaining shareholder approval. Shareholders will be notified within 90 days of the engagement of any sub-adviser to assist in managing the Fund’s portfolio. The Order also allows the Fund, in accordance with certain conditions, to disclose only aggregate sub-adviser compensation without disclosing the sub-adviser fee rate.

Princeton Fund Advisors, LLC’s Investment Process

The adviser’s investment process combines risk management, due diligence, experienced portfolio construction, and portfolio monitoring. Portfolio design begins with the establishment of objectives for precise, quantifiable measures of risk, such as standard deviation of monthly returns. The adviser then monitors strategies, as-executed, for investment performance and achievement of risk objectives. The adviser seeks to mitigate risks where possible, and managing appropriate risks for the Fund’s investment objective and desired returns. The adviser has overall supervisory responsibilities for the general management and investment of the Fund’s securities portfolio. A summary of the adviser’s process is as follows:

- Setting the Fund’s overall investment objective
- Monitoring the performance of the investment portfolio, including compliance with the investment objectives, policies, and restrictions of the Fund
- Implementing procedures to ensure that the Fund complies with its investment objective, policies and restrictions
- Conducting initial and on-going independent evaluation of the Fund’s asset allocation

The adviser manages the fixed income strategy directly and monitors the Fund’s portfolio to assure that investments that are made are consistent with the Fund’s strategy. The adviser will also monitor buying and selling of securities to manage portfolio-level risk.

The Fund may engage in frequent trading in executing its principal investment strategies.

Principal Investment Risks:

The following risks may apply to the Fund’s investments.

- *Credit Risk:* There is a risk that issuers and counterparties will not make payments on securities and other investments held by the Fund, resulting in losses to the Fund. In addition, the credit quality of securities held by the Fund may be lowered if an issuer’s financial condition changes. Lower credit quality may lead to greater volatility in the price of a security and in shares of the Fund. Lower credit quality also may affect liquidity and make it difficult for the Fund to sell the security. Default, or the market’s perception that an issuer is likely to default, could reduce the value and liquidity of securities held by the Fund, thereby reducing the value of your investment in Fund shares. In addition, default may cause the Fund to incur expenses in seeking recovery of principal or interest on its portfolio holdings. Credit risk may also exist whenever the Fund enters into certain derivative contracts, because the counterparty may not be able or may choose not to perform under the contract. Relying on a counterparty exposes the Fund to the risk that a counterparty will not settle a transaction in accordance with its terms and conditions because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Fund to suffer a loss. If a counterparty defaults on its payment obligations to the Fund, this default will cause the value of an investment in the Fund to decrease. In addition, to the extent the Fund deals with a limited number of counterparties, it will be more susceptible to the credit risks associated with those counterparties. The Fund is neither restricted from dealing with any particular counterparty nor from concentrating any or all of its transactions with one counterparty.
- *Fixed Income Risk:* The Fund may invest directly in fixed income securities, or indirectly through Underlying Funds whose principal investment strategy is to invest primarily in fixed income securities. When the Fund invests in fixed income securities, the value of your investment in the Fund will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities owned by the Fund. In general, the market price of debt securities with longer maturities will increase or decrease more in response to changes in interest rates than shorter-term securities. Other risk factors include credit risk (the debtor may default) and prepayment risk (the debtor may pay its obligation early, reducing the amount of interest payments; or the debtor may pay its obligation later than expected, reducing the returns earned by an investment). These risks could affect the value of a particular investment by the Fund possibly causing the Fund’s share price and returns to be reduced and fluctuate more than other types of investments.
- *Futures Risk:* The Fund’s exposure to futures involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) leverage risk (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the futures contract may not correlate perfectly with the

ProfitScore Long/Short Treasuries Index. Investments in futures involve leverage, which means a small percentage of assets invested in futures can have a disproportionately large impact on the Fund. This risk could cause the Fund to lose more than the principal amount invested. Futures contracts may become mispriced or improperly valued when compared to the adviser's expectation and may not produce the desired investment results.

- *Management Risk:* The net asset value of the Fund changes daily based on the performance of the securities and derivatives in which it invests. The adviser's judgments about the attractiveness of the Fund's investment strategy or securities in which the Fund invests may prove to be incorrect and may not produce the desired results. The Fund may also experience losses in a negative equity market, and such losses may be amplified if the Fund's strategy is not successful.
- *Market Volatility Risk:* The net asset value of the Fund will fluctuate based on changes in the value of the fixed income securities and futures in which the Fund invests. The price of securities and derivatives may rise or fall because of economic or political changes. Security and derivative prices in general may decline over short or even extended periods of time. Market prices of securities and derivatives in broad market segments may be adversely affected by price trends in interest rates, exchange rates or other factors wholly unrelated to the value or condition of an issuer.
- *Model Risk:* Like all quantitative analysis, ProfitScore's directional trading model used to create the Index carries a risk that it might be based on one or more incorrect assumptions. The model may not accurately predict the direction of the value of US Treasuries. Rapidly changing and unforeseen market dynamics could also lead to a decrease in the effectiveness of the model. No assurance can be given that the Fund will be successful under all or any market conditions.
- *No History of Operations:* The Fund is a new mutual fund and prior to its recent commencement of operations had no history of operations for investors to evaluate. Investors in the Fund bear the risk that the Fund may not be successful in implementing its investment strategy, may be unable to implement certain aspects of its investment strategy or may fail to attract sufficient assets, any of which could result in the Fund being liquidated and terminated at any time without shareholder approval and at a time that may not be favorable for all shareholders.
- *Non-Correlation Risk:* The Fund is not designed to participate in or be correlated to overall movements of the markets; therefore the Fund may not benefit from positive equity or fixed income markets, or experience the same type of positive returns as some other funds in a positive equity or fixed income market environment.
- *Non-Diversification Risk:* As a non-diversified fund, the Fund may invest more than 5% of its total assets in the securities of one or more issuers. The Fund may also invest in Underlying Funds that are non-diversified. Because a relatively high percentage of the assets of the Fund may be invested in the securities of a limited number of issuers, the value of shares of the Fund may be more sensitive to any single economic, business, political or regulatory occurrence than the value of shares of a diversified investment company. This fluctuation, if significant, may affect the performance of the Fund.
- *Options Risk:* The Fund may lose the entire put option premium paid if the underlying security does not decrease in value at expiration. Put options may not be an effective hedge because they may have imperfect correlation to the value of the Fund's portfolio securities. Purchased put options may decline in value due to changes in price of the underlying security, passage of time and changes in volatility. The Fund will incur a loss as a result of a written options (also known as a short position) if the price of the written option instrument increases in value between the date when the Fund writes the option and the date on which the Fund purchases an offsetting position.
- *Swap Risk:* The Fund's use of swaps involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) the risk that the counterparty to a derivative transaction may not fulfill its contractual obligations; (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index. Derivative prices are highly volatile and may fluctuate substantially during a short period of time. Such prices are influenced by numerous factors that affect the markets, including, but not limited to: changing supply and demand relationships; government programs and policies; national and international political and economic events, changes in interest rates, inflation and deflation and changes in supply and demand relationships. Trading derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities. Derivative contracts ordinarily have leverage inherent in their terms. The low margin deposits normally required in trading derivatives, including futures contracts, permit a high degree of leverage. Accordingly, a relatively small price movement may result in an immediate and substantial loss to the Fund. The use of leverage may also cause the Fund to liquidate portfolio positions when it would not be advantageous to do so in order to satisfy its obligations or to meet collateral segregation requirements. The use of leveraged derivatives can magnify the Fund's potential for loss and, therefore, amplify the effects of market volatility on the Fund's share price.
- *Turnover Risk:* A higher portfolio turnover may result in higher transactional and brokerage costs associated with the turnover which may reduce the Fund's return, unless the portfolio assets traded can be bought and sold without corresponding commission costs. Active trading may also increase the Fund's realized capital gains or losses, which may affect the taxes you pay as a Fund shareholder.

- **Underlying Funds Risk:** The Fund invests in Underlying Funds. As a result, your cost of investing in the Fund may be higher than the cost of investing directly in Underlying Funds and may be higher than other mutual funds that invest directly in stocks and bonds. You will indirectly bear fees and expenses charged by the Underlying Funds in addition to the Fund's direct fees and expenses. In addition, certain prohibitions on the acquisition of mutual fund shares by the Fund may prevent the Fund from allocating investments in the manner the adviser considers optimal. Underlying Funds in which the Fund may invest may be subject to different risks, investment strategies and policies than those of the Fund.

Temporary Defensive Positions: To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in U.S. Treasury bonds, high-quality short-term debt securities and money market instruments, which may be inconsistent with the Fund's principal investment strategy. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the Fund may not achieve its investment objective. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees.

Portfolio Holdings Disclosure: A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information. The Fund may, from time to time, make available month-end portfolio holdings information on the website www.princeton-treasuryfund.com. If month-end portfolio holdings are posted to the website, they are expected to be at least 60 days old and remain available until new information for the next month is posted. Shareholders may request portfolio holdings schedules at no charge by calling 1-888-868-9501.

Cybersecurity: The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, the adviser, the sub-adviser and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

Similar adverse consequences could result from cybersecurity breaches affecting issuers of securities in which the Fund invests; counterparties with which the Fund engages in transactions; governmental and other regulatory authorities; exchange and other financial market operators, banks, brokers, dealers, insurance companies, and other financial institutions (including financial intermediaries and service providers for the Fund's shareholders); and other parties. In addition, substantial costs may be incurred by these entities in order to prevent any cybersecurity breaches in the future.

MANAGEMENT

Investment Adviser and Portfolio Managers

Princeton Fund Advisors, LLC ("Princeton"), 1580 Lincoln Street, Suite 680 Denver, CO 80203, serves as investment adviser to the Fund. Subject to the authority of the Board of Trustees, the adviser is responsible for management of the Fund's investment portfolio. The adviser is responsible for selecting appropriate investment strategies, assuring that investments are made according to the Fund's investment objective, policies and restrictions, and determining the allocation of Fund assets among the Fund's principal investment strategies. The adviser was established in 2011 for the purpose of advising individuals and institutions. As of March 31, 2016, the adviser had approximately \$855 million in assets under management. Greg D. Anderson and John L. Sabre of Princeton are responsible for the adviser's oversight role with respect to the Fund.

Greg D. Anderson

Manager and President

Prior to founding Princeton Fund Advisors, LLC in 2011 and certain affiliates, including Mount Yale Capital Group, LLC in 2003 and Mount Yale Asset Management in 1999, Mr. Anderson was a Senior Vice President and Managing Director of Investment Manager Search, Evaluation, and Due Diligence at Portfolio Management Consultants, Inc. Mr. Anderson was previously employed with Deloitte & Touche where he specialized in the areas of estate planning, health care and non-profit organizations, and tax and personal finance planning for high net worth individuals. Mr. Anderson holds a B.A. degree from Hamline University in Minnesota and a J.D. from the University of Minnesota School of Law. Mr. Anderson is a Certified Public Accountant (inactive).

John L. Sabre

Manager and Chief Executive Officer

Prior to founding Princeton Fund Advisors, LLC in 2011 and certain affiliates, including Mount Yale Capital Group, LLC in 2003, Mr. Sabre was a Senior Managing Director at Bear Stearns & Co. and Head of the Mezzanine Capital Group. Mr. Sabre previously served as President of First Dominion Capital, which managed \$3.0 billion of assets and is now owned by Credit Suisse First Boston. Prior to his position at First Dominion Capital, Mr. Sabre was a Managing Director and founding partner of Indosuez Capital, the merchant banking division of Credit Agricole Indosuez. Mr. Sabre holds a B.S. degree from the Carlson School at the University of Minnesota and an M.B.A. degree from the Wharton School at the University of Pennsylvania.

Pursuant to an advisory agreement between the Trust, on behalf of the Fund, and the adviser, the adviser is entitled to receive, on a monthly basis, an annual advisory fee from each class of shares equal to 1.00% of the Fund's average daily net assets attributable to the relevant share. The Fund's adviser has contractually agreed to reduce its fees and/or absorb expenses of the Fund, until at least February 28, 2018, to ensure that Total Annual Fund Operating Expenses After Fee Waiver and/or Reimbursement (excluding any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, fees and expenses associated with investments including investments in other collective investment vehicles or derivative instruments (for example options fees and expenses), borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees and contractual indemnification of Fund service providers (other than the adviser)) do not exceed 1.50% and 1.25% for Class A and Class I shares, respectively; subject to possible recoupment from the Fund in future years (within the three years after the end of the fiscal year during which fees were waived or reimbursed) if such recoupment can be achieved within the lesser of the foregoing expense limits or the then-current expense limits. Fee waiver and reimbursement arrangements can decrease the Fund's expenses and boost its performance. A discussion regarding the basis for the Board of Trustees' approval of the advisory will be available in the Fund's initial semi-annual report to shareholders.

HOW SHARES ARE PRICED

The net asset value ("NAV") and offering price (NAV plus any applicable sales charges) of each class of shares is determined as of the close of the New York Stock Exchange ("NYSE") (normally 4:00 p.m., Eastern Time) on each day the NYSE is open for business. NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding (assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and distribution fees (if any), which are accrued daily. The determination of NAV for a share class for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund's securities are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid and ask prices on such exchange. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price ("NOCP"). If market quotations are not readily available, such securities will be valued at fair value as determined using the "fair value" procedures approved by the Board. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security is materially different than the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available. The Board has delegated execution of these procedures to a fair value team composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) adviser and/or sub-adviser. The team may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board retains responsibility for fair value pricing, and it reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results. The Fund may use independent pricing services to assist in calculating the value of the Fund's securities. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund. In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund's portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Fund may need to price the security using the Fund's fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund's NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine net asset value, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund’s assets that are invested in one or more open-end management investment companies registered under the 1940 Act, the Fund’s net asset value is calculated based upon the net asset values of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

HOW TO PURCHASE SHARES

Share Classes

This Prospectus describes three classes of shares offered by the Fund. The main differences between the shares classes are the minimum investment, ongoing fees and sales charges. Class A shares pay an annual fee of 0.25%, for distribution expenses pursuant to a plan under Rule 12b-1. Class I shares do not pay such fees. For information on ongoing distribution fees, see **Distribution (12b-1) and Shareholder Servicing Fees** on page 16 of this Prospectus. In choosing which class of shares to purchase, you should consider which will be most beneficial to you, given the amount of your purchase. All classes of shares in the Fund represent interest in the same portfolio of investments in the Fund. All share classes may not be available for purchase in all states.

Class A Shares

Class A shares are offered at their public offering price, which is NAV plus the applicable sales charge and is subject to 12b-1 distribution fees of up to 0.25% of the average daily net assets of Class A shares. Over time, these fees paid under the 12b-1 Plan will increase the cost of a Class A shareholder’s investment and may cost more than the applicable sales charges. The minimum initial investment in Class A shares of the Fund is \$2,500 for retirement plan accounts and \$2,500 for all other accounts. The minimum subsequent investment in Class A shares of the Fund is \$100 for retirement plan accounts and \$100 for all other accounts. However, the Fund and the adviser reserve the right to waive investment minimums for certain types of investors, including current and retired directors and officers of the Fund, the adviser, any sub-advisers or any of its subsidiaries, their families (e.g., spouse, children, mother or father) and any purchases referred through the adviser; employees of the adviser, any sub-advisers and their families, or any full-time employee or registered representative of the distributor or of broker-dealers having dealer agreements with the distributor (a “Selling Broker”) and their immediate families (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons); or clients of financial intermediaries that have entered into arrangements with the distributor providing for the shares to be used in particular investment products made available to such clients. The sales charge varies, depending on how much you invest. There are no sales charges on reinvested distributions. The following sales charges, which may be waived at the adviser’s discretion, apply to your purchases of Class A shares of the Fund:

Amount Invested	Sales Charge as a % of Offering Price⁽¹⁾	Sales Charge as a % of Amount Invested	Dealer Reallowance
Under \$25,000	5.75%	6.10%	5.00%
\$25,000 to \$49,999	5.00%	5.26%	4.25%
\$50,000 to \$99,999	4.75%	4.99%	4.00%
\$100,000 to \$249,999	3.75%	3.83%	3.25%
\$250,000 to \$499,999	2.50%	2.56%	2.00%
\$500,000 to \$999,999	2.00%	2.04%	1.75%
\$1,000,000 and above	1.00%	1.01%	1.00%

(1) Offering price includes the front-end sales load. The sales charge you pay may differ slightly from the amount set forth above because of rounding that occurs in the calculation used to determine your sales charge.

How to Reduce Your Sales Charge

You may be eligible to purchase Class A shares at a reduced sales charge. To qualify for these reductions, you must notify the Fund’s distributor, Foreside Distribution Services, L.P. (the “Distributor”), in writing and supply your account number at the time of purchase. You may combine your purchase with those of your “immediate family” (your spouse and your children under the age of 21) for purposes of determining eligibility. If applicable, you will need to provide the account numbers of your spouse and your minor children as well as the ages of your minor children.

Rights of Accumulation: To qualify for the lower sales charge rates that apply to larger purchases of Class A shares, you may combine your new purchases of Class A shares with Class A shares of the Fund that you already own. The applicable initial sales charge for the new purchase is based on the total of your current purchase and the current value of all other Class A shares that you own. The reduced sales charge will apply only to current purchases and must be requested in writing when you buy your shares.

Shares of the Fund held as follows cannot be combined with your current purchase for purposes of reduced sales charges:

- Shares held indirectly through financial intermediaries other than your current purchase broker-dealer (for example, a different broker-dealer, a bank, a separate insurance company account or an investment adviser);
- Shares held through an administrator or trustee/custodian of an Employer Sponsored Retirement Plan (for example, a 401(k) plan) other than employer-sponsored IRAs;
- Shares held directly in the Fund account on which the broker-dealer (financial adviser) of record is different than your current purchase broker-dealer.

Letters of Intent: Under a Letter of Intent (“LOI”), you commit to purchase a specified dollar amount of Class A shares of the Fund, with a minimum of \$25,000, during a 13-month period. At your written request, Class A shares purchases made during the previous 90 days may be included. The amount you agree to purchase determines the initial sales charge you pay. If the full-face amount of the LOI is not invested by the end of the 13-month period, your account will be adjusted to the higher initial sales charge level for the amount actually invested. You are not legally bound by the terms of your LOI to purchase the amount of your shares stated in the LOI. The LOI does, however, authorize the Fund to hold in escrow 5% of the total amount you intend to purchase. If you do not complete the total intended purchase at the end of the 13 month period, the Fund’s transfer agent will redeem the necessary portion of the escrowed shares to make up the difference between the reduced rate sales charge (based on the amount you intended to purchase) and the sales charge that would normally apply (based on the actual amount you purchased).

Repurchase of Class A Shares: If you have redeemed Class A shares of the Fund within the past 120 days, you may repurchase an equivalent amount of Class A shares of the Fund at NAV, without the normal front-end sales charge. In effect, this allows you to reacquire shares that you may have had to redeem, without repaying the front-end sales charge. You may exercise this privilege only once and must notify the Fund that you intend to do so in writing. The Fund must receive your purchase order within 120 days of your redemption. Note that if you reacquire shares through separate installments (e.g., through monthly or quarterly repurchases), the sales charge waiver will only apply to those portions of your repurchase order received within 120 days of your redemption.

Sales Charge Waivers

The sales charge on purchases of Class A shares is waived for certain types of investors, including:

- Current and retired directors and officers of the Fund, the adviser, a sub-adviser or any of their subsidiaries, their families (e.g., spouse, children, mother or father) and any purchases referred through the adviser.
- Employees of the adviser, a sub-adviser and their families, or any full-time employee or registered representative of the distributor or of broker-dealers having dealer agreements with the distributor (a “Selling Broker”) and their immediate families (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons).
- Any full-time employee of a bank, savings and loan, credit union or other financial institution that utilizes a Selling Broker to clear purchases of the Fund’s shares and their immediate families.
- Participants in certain “wrap-fee” or asset allocation programs or other fee-based arrangements sponsored by broker-dealers and other financial institutions that have entered into agreements with the distributor.
- Clients of financial intermediaries that have entered into arrangements with the distributor providing for the shares to be used in particular investment products made available to such clients and for which such registered investment advisers may charge a separate fee.
- Institutional investors (which may include bank trust departments and registered investment advisers).
- Any accounts established on behalf of registered investment advisers or their clients by broker-dealers that charge a transaction fee and that have entered into agreements with the distributor.
- Separate accounts used to fund certain unregistered variable annuity contracts or Section 403(b) or 401(a) or (k) accounts.
- Employer-sponsored retirement or benefit plans with total plan assets in excess of \$5 million where the plan’s investments in the Fund are part of an omnibus account. A minimum initial investment of \$1 million in the Fund is required. The distributor in its sole discretion may waive these minimum dollar requirements.

The Fund does not waive sales charges for the reinvestment of proceeds from the sale of shares of a different fund where those shares were subject to a front-end sales charge (sometimes called an “NAV transfer”).

Whether a sales charge waiver is available for your retirement plan or charitable account depends upon the policies and procedures of your intermediary. Please consult your financial adviser for further information.

Class I Shares: Class I shares of the Fund are sold at NAV without an initial sales charge and are not subject to 12b-1 distribution fees, but have a higher minimum initial investment than Class A shares. This means that 100% of your initial investment is placed into shares of the Fund. Class I shares require a minimum initial investment of \$100,000 and minimum subsequent investment of \$100. However, the adviser may waive investment minimums on behalf of the Fund for the type of investors described on page 9.

Purchasing Shares: You may purchase shares of the Fund by sending a completed application form to the following address:

Via Regular Mail
**PRINCETON LONG/SHORT
TREASURY FUND**
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, Nebraska 68154

Via Overnight Mail
**PRINCETON LONG/SHORT
TREASURY FUND**
c/o Gemini Fund Services, LLC
17605 Wright Street, Suite 2
Omaha, Nebraska 68130

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the Application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

Purchase through Brokers: You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various brokers or agents use procedures and impose restrictions that may be in addition to, or different from, those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your broker or agent.

Purchase by Wire: If you wish to wire money to make an investment in the Fund, please call the Fund at 1-888-868-9501 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

Automatic Investment Plan: You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of \$100 on specified days of each month into your established Fund account. Please contact the Fund at 1-888-868-9501 for more information about the Fund's Automatic Investment Plan.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a wire transfer or a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to "Princeton Premium Fund." The Fund will not accept payment in cash, including cashier's checks or money orders. Also, to prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks or starter checks for the purchase of shares.

Note: Gemini Fund Services, LLC, the Fund's transfer agent, will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any check returned to the transfer agent for insufficient funds.

When Order is Processed: All shares will be purchased at the NAV per share (plus applicable sales charges, if any) next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund before 4:00 p.m. (Eastern Time) on a day the NYSE is open (each a "business day") will be processed on that same day. Requests received after 4:00 p.m. will be processed on the next business day.

Good Order: When making a purchase request, make sure your request is in good order. “Good order” means your purchase request includes:

- the name of the Fund and share class
- the dollar amount of shares to be purchased
- a completed purchase application or investment stub
- check payable to the “Princeton Premium Fund”

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans. Please call the Fund at 1-888-868-9501 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

HOW TO REDEEM SHARES

Redeeming Shares: You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

Via Regular Mail
**PRINCETON LONG/SHORT
TREASURY FUND**
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, Nebraska 68154

Via Overnight Mail
**PRINCETON LONG/SHORT
TREASURY FUND**
c/o Gemini Fund Services, LLC
17605 Wright Street, Suite 2
Omaha, Nebraska 68130

Redemptions by Telephone: The telephone redemption privilege is automatically available to all new accounts except retirement accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account.

The proceeds will be sent by mail to the address designated on your account or wired directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call 1-888-868-9501. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of your telephone instructions. IRA accounts are not redeemable by telephone.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Fund’s transfer agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

Automatic Withdrawal Plan: If your individual accounts, IRA or other qualified plan account have a current account value of at least \$10,000, you may participate in the Fund’s Automatic Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of \$100 on specified days of each month into your established bank account. Please contact the Fund at 1-888-868-9501 for more information about the Fund’s Automatic Withdrawal Plan.

Redemptions in Kind: The Fund reserves the right to honor requests for redemption or repurchase orders by making payment in whole or in part in readily marketable securities (“redemption in kind”) if the amount is greater than the lesser of \$250,000 or 1% of the Fund’s assets. The securities will be chosen by the Fund and valued under the Fund’s net asset value procedures. A shareholder will be exposed to market risk until these securities are converted to cash and may incur transaction expenses such as brokerage fees or taxes in converting these securities to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in “good order” as described below, it will issue a check based on the next determined NAV following your redemption request. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of a request in “good order.” However, under the 1940 Act, a shareholder’s right to redeem shares and to receive payment therefore may be suspended at times (a) when the NYSE is closed, other than customary weekend and holiday; (b) when trading on that exchange is restricted for any reason; (c) when an emergency exists as a result of which disposal by the Fund of securities owned by it is not reasonably practicable or it is not reasonably practicable for the Fund fairly to determine the value of its net assets, provided that applicable rules and regulations of the Securities and Exchange Commission (or any succeeding governmental authority) will govern as to whether the conditions prescribed in (b) or (c) exist; or (d) when the Securities and Exchange Commission by order permits a suspension of the right to redemption or a postponement of the date of payment on redemption. In case of suspension of the right of redemption, payment of a redemption request will be made based on the NAV next determined after the termination of the suspension. If you purchase shares using a check and soon after request a redemption, your redemption proceeds will not be sent until the check used for your purchase has cleared your bank (usually within 10 days of the purchase date).

Good Order: Your redemption request will be processed if it is in “good order.” To be in good order, the following conditions must be satisfied:

- The request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- The request must identify your account number;
- The request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- If you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$50,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed \$50,000;
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record; or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

Retirement Plans: If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

Low Balances: If at any time your account balance in the Fund falls below the share class minimum, the Fund may notify you that, unless the account is brought up to at least the minimum within 60 days of the notice; your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below the share class minimum due to a decline in NAV.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund currently uses several methods to reduce the risk of market timing, including committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's "Market Timing Trading Policy", including rejecting or limiting specific purchase requests; rejecting purchase requests from certain investors; and charging a redemption fee.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders. Generally exchange activity is considered excessive if shares of the Fund are exchanged or redeemed within seven calendar days of purchase or exchange activity exceeds 1% of the net asset value of the Fund.

Based on the frequency of redemptions in your account, the adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to reject or limit the amount, number, frequency or method for requesting future purchases or exchanges into the Fund.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the adviser will be liable for any losses resulting from rejected purchase orders. The Fund may also bar an investor who has violated these policies (and the investor's financial adviser) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. The risk also exists that because such methods are inherently subjective, the discretionary application of the Fund's response to potential market timing actions may not be uniformly applied. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the extent known to the broker to the Fund upon request. If the Fund or its transfer agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Any sale or exchange of the Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to distribute substantially all of its net investment income and net capital gains at least annually. Certain distributions may be deemed a return of capital. All distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Distribution Policy and Goals

Except during periods of substantial asset growth, the level of distributions (including any return of capital) is not fixed but is expected to be in a range equivalent to 1% to 3% of the Fund's current net asset value per share, expressed as an annual rate. Additionally, the Fund's distribution policy is not designed to generate or guarantee distributions that equal a fixed percentage of the Fund's current net asset value per share.

The Fund generally distributes to shareholders substantially all of its net income (which includes, for example, interest and dividends) as well as substantially all of its net capital gains (that is, long-term capital gains from the sale of portfolio securities and short-term capital gains from both the sale of portfolio securities). In addition, pursuant to its distribution policy, the Fund may make distributions that are treated as a return of capital. Return of capital is the portion of a distribution that is the return of your original investment dollars in the Fund. A return of capital is not taxable to a shareholder unless it exceeds a shareholder's tax basis in the shares.

Returns of capital reduce a shareholder's tax cost (or "tax basis"). Once a shareholder's tax basis is reduced to zero, any further return of capital would be taxable. Shareholders receiving periodic payments from the Fund may be under the impression that they are receiving net profits. However, all or a portion of a distribution may consist of a return of capital (i.e. from your original investment). Shareholders should not assume that the source of a distribution from the Fund is net profit. Shareholders should note that return of capital will reduce the tax basis of their shares and potentially increase the taxable gain, if any, upon disposition of their shares. As required under the 1940 Act, the Fund will provide a notice to shareholders at the time of distribution when such distribution does not consist solely of net income. Additionally, each distribution payment will be accompanied by a written statement which discloses the source or sources of each distribution. The IRS requires you to report these amounts, excluding returns of capital, on your income tax return for the year declared. The Fund will provide disclosures, with each distribution, that estimate the percentages of the current and year-to-date distributions that represent (1) net investment income, (2) qualified dividends, (3) capital gains and (4) return of capital. At the end of the year, the Fund may be required under applicable law to re-characterize distributions made previously during that year among (1) ordinary income, (2) capital gains and (3) return of capital for tax purposes. An additional distribution may be made in December, and other additional distributions may be made with respect to a particular fiscal year in order to comply with applicable law. Distributions declared in December, if paid to shareholders by the end of January, are treated for federal income tax purposes as if received in December.

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisers to determine the tax consequences of owning the Fund's shares.

DISTRIBUTION OF SHARES

Distributor: Foreside Distribution Services, L.P., (the “Distributor”) located at Three Canal Plaza, Suite 100, Portland, Maine 04101, is the distributor for the shares of the Fund. Distributors is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. (“FINRA”). Shares of the Fund are offered on a continuous basis.

Distribution (12b-1) and Shareholder Servicing Fees: The Trust, with respect to the Fund, has adopted the Trust’s Master Distribution and Shareholder Servicing Plan (“12b-1 Plan” or “Plan”) for Class A shares, pursuant to which the Fund may pay the Fund’s distributor an annual fee for distribution and shareholder servicing expenses of 0.25% of the Fund’s average daily net assets attributable to Class A shares.

The Distributor and other entities are paid under the Plan for services provided and the expenses borne by the distributor and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund’s shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the distributor or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any un-reimbursed expenses.

You should be aware that if you hold your shares for a substantial period of time, you may indirectly pay more than the economic equivalent of the maximum front-end sales charge allowed by the Financial Industry Regulatory Authority due to the recurring nature of distribution (12b-1) fees.

Additional Compensation to Financial Intermediaries: The Distributor, the adviser and each of their affiliates, or other Fund affiliates may each, at its own expense and out of its own assets including its legitimate profits from Fund-related activities, provide additional cash payments, travel or other expense reimbursements to financial intermediaries who sell shares of the Fund or assist in the marketing of the Fund, including placement agents and marketing specialists. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the Rule 12b-1 fees and any sales charges that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, conference sponsorships, costs or expenses of attending adviser-sponsored due diligence conferences, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The Distributor may, from time to time, provide promotional incentives to certain investment firms. Such incentives may, at the distributor’s discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional compensation.

Householding: To reduce expenses, the Fund mails only one copy of a Prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-888-868-9501 on days the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

Because the Fund has only recently commenced investment operations, no financial highlights are available for the Fund at this time. In the future, financial highlights will be presented in this section of the Prospectus.

The Fund is not sponsored, endorsed, sold or promoted by ProfitScore Capital Management, Inc. (“**Licensor**”). Licensor makes no representation or warranty, express or implied, to the shareholders of the Fund or any member of the public regarding the advisability of trading in the Fund. Licensor’s only relationship to Princeton Fund Advisors, LLC (“**Licensee**”) is the licensing of certain trademarks and trade names of Licensor and of the ProfitScore Long/Short Treasury Index, which is determined, composed and calculated by Licensor without regard to Licensee or the Fund. Licensor has no obligation to take the needs of Licensee or the investors of the Fund into consideration in determining, composing or calculating ProfitScore Long/Short Treasury Index, Licensor is not responsible for and has not participated in the determination of the timing of, prices at, or quantities of the Fund to be listed or in the determination or calculation of the equation by which the Fund is to be converted into cash. Licensor has no obligation or liability in connection with the administration, marketing or actual investing of the Fund.

LICENSOR DOES NOT GUARANTEE OR MAKE ANY REPRESENTATION OR WARRANTY AS TO THE ACCURACY AND/OR THE COMPLETENESS OF THE PROFITSCORE LONG/SHORT TREASURY INDEX OR ANY DATA INCLUDED THEREIN AND LICENSOR SHALL HAVE NO LIABILITY FOR ANY ERRORS, OMISSIONS OR INTERRUPTIONS THEREIN. THE INDEX, ANY DATA CONTAINED THEREIN AND ANY OTHER DATA OR INFORMATION SUPPLIED BY LICENSOR IS PROVIDED ON AN “AS IS” BASIS. LICENSOR MAKES NO WARRANTY, EXPRESS OR IMPLIED, AS TO RESULTS TO BE OBTAINED BY LICENSEE, OWNERS OF THE FUND, OR ANY OTHER PERSON OR ENTITY FROM THE USE OF THE PROFITSCORE LONG/SHORT TREASURY INDEX OR ANY DATA INCLUDED THEREIN. LICENSOR MAKES NO EXPRESS OR IMPLIED WARRANTIES, AND EXPRESSLY DISCLAIMS ALL WARRANTIES OF MERCHANTABILITY, NON-INFRINGEMENT OR FITNESS FOR A PARTICULAR PURPOSE OR USE WITH RESPECT TO THE [INSERT NAME OF INDEX] OR ANY DATA INCLUDED THEREIN, OR ANY WARRANTIES WITH RESPECT TO THE TIMELINESS, SEQUENCE, ACCURACY, COMPLETENESS, CURRENTNESS OR QUALITY OF THE INDEX, ANY DATA CONTAINED THEREIN OR ANY DATA OR INFORMATION SUPPLIED BY LICENSOR. LICENSOR SHALL NOT BE RESPONSIBLE FOR ANY MISDELIVERY OF ANY DATA RELATED TO OR ASSOCIATED WITH THE INDEX OR ANY DATA CONTAINED THEREIN. WITHOUT LIMITING ANY OF THE FOREGOING, IN NO EVENT SHALL LICENSOR HAVE ANY LIABILITY FOR ANY LOST PROFITS OR INDIRECT, PUNITIVE, SPECIAL OR CONSEQUENTIAL DAMAGES (INCLUDING LOST PROFITS), EVEN IF NOTIFIED OF THE POSSIBILITY OF SUCH DAMAGES. LICENSOR AND ITS RESPECTIVE AFFILIATES AND EACH OF THEIR RESPECTIVE OFFICERS, DIRECTORS, EMPLOYEES, AGENTS AND SOURCES SHALL NOT BE LIABLE TO LICENSEE OR ANY THIRD PARTY FOR ANY LOSS OR DAMAGE, DIRECT, INDIRECT OR CONSEQUENTIAL, ARISING FROM (A) ANY INACCURACY OR INCOMPLETENESS IN, OR DELAYS, INTERRUPTIONS, ERRORS OR OMISSIONS IN THE DELIVERY OF THE INDEX OR ANY DATA CONTAINED THEREIN, OR (B) ANY DECISION MADE OR ACTION TAKEN BY LICENSEE OR ANY THIRD PARTY IN RELIANCE UPON THE FUND, INDEX OR ANY DATA CONTAINED THEREIN. THERE ARE NO THIRD PARTY BENEFICIARIES OF ANY AGREEMENTS OR ARRANGEMENTS BETWEEN LICENSOR AND LICENSEE.

PRIVACY NOTICE

Rev. February 2014

FACTS WHAT DOES NORTHERN LIGHTS FUND TRUST DO WITH YOUR PERSONAL INFORMATION?

Why? Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What? The types of personal information we collect and share depend on the product or service you have with us. This information can include:

- | | |
|--|--|
| <ul style="list-style-type: none"> ▪ Social Security number ▪ Assets ▪ Retirement Assets ▪ Transaction History ▪ Checking Account Information | <ul style="list-style-type: none"> ▪ Purchase History ▪ Account Balances ▪ Account Transactions ▪ Wire Transfer Instructions |
|--|--|

When you are *no longer* our customer, we continue to share your information as described in this notice.

How? All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Northern Lights Fund Trust chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information	Does Northern Lights Fund Trust share?	Can you limit this sharing?
For our everyday business purposes – such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus	Yes	No
For our marketing purposes – to offer our products and services to you	No	We don't share
For joint marketing with other financial companies	No	We don't share
For our affiliates' everyday business purposes – information about your transactions and experiences	No	We don't share
For our affiliates' everyday business purposes – information about your creditworthiness	No	We don't share
For nonaffiliates to market to you	No	We don't share

Questions? Call (402) 493-4603

Who we are

Who is providing this notice? Northern Lights Fund Trust

What we do

How does Northern Lights Fund Trust protect my personal information? To protect your personal information from unauthorized access and use, we use security measures that comply with federal law. These measures include computer safeguards and secured files and buildings.

Our service providers are held accountable for adhering to strict policies and procedures to prevent any misuse of your nonpublic personal information.

How does Northern Lights Fund Trust collect my personal information? We collect your personal information, for example, when you

- Open an account
- Provide account information
- Give us your contact information
- Make deposits or withdrawals from your account
- Make a wire transfer
- Tell us where to send the money
- Tells us who receives the money
- Show your government-issued ID
- Show your driver's license

We also collect your personal information from other companies.

Why can't I limit all sharing?

Federal law gives you the right to limit only

- Sharing for affiliates' everyday business purposes – information about your creditworthiness
- Affiliates from using your information to market to you
- Sharing for nonaffiliates to market to you

State laws and individual companies may give you additional rights to limit sharing.
